# My Diet Type

Preferred Intermittent Fasting Models:

- Step #1: 12:12 (5x a day)
- Step #2: Drop 1 Meal = 14:10
- Step #3: Drop 2 Meals = 16:8
- Step #4: Add 24hr. Fast = 1x a month

PROTEIN TYPE

P 45%                      C 25%                      F 30%

Preferred Fitness Macros:

- 50%      Strength (36 min / 60 min)
- 30%      Endurance (18 min / 60 min)
- 20%      Flexibility (12 min / 60 min)

**Food Responses:** Protein Types typically crave rich, fatty foods such as pizza, sausages, and salty roasted nuts. If you are a Protein Type, chances are that you love food. You may not feel satiated after a snack and may often feel hungry, even after eating a large meal. When you have eaten too many carbohydrates, you tend to crave sugar. And once you start eating sugary foods, you want more and more and may find it difficult to stop. Sugar often causes you to feel jittery and will quickly make your energy levels drop.

**Weight Loss:** Protein Types may have tried to lose weight by using extreme calorie-cutting methods, only to be unsuccessful—and feel miserable in the process. Protein Types cannot successfully lose weight by drastically decreasing calorie intake.

**Energy:** When Protein Types eat the wrong kind of food, they may notice energy problems—extreme fatigue or a wired “on edge” feeling. Eating often makes them feel better when they feel anxious, nervous, or shaky, but then they feel worse soon afterward. These cycles of energy ups and downs are definite signs of a mismatch between metabolism type and food consumption.

**What Does a Protein Type Need?** Protein Types need a diet high in proteins and fats and low in carbohydrates. But think balance—not the Atkins Diet! Protein Types can eat various carbohydrates in the form of some grains, fruits, and vegetables, as long as they are adequately balanced with proteins and fats. Because Protein Types metabolize food more quickly than other metabolism types (which is why they feel hungry all the time), heavier protein choices such as whole eggs, dark-meat poultry, beef, and dairy are essential for ideal meal planning. These foods have long been considered “unhealthy” because of their high fat content, but as you will learn in our Mastery Modules, saturated fat is not the cause of disease; refined carbohydrates, processed foods, and hydrogenated oils are to blame. Protein Types who do not eat heavy proteins with a high fat content will be hungry all day and struggle with their weight. Even worse, eating only carbohydrates at a meal or snack causes your blood sugar to spike and then drop quickly, which will leave a Protein Type feeling hungry, fatigued, and anxious as well as cause cravings for more carbohydrates shortly afterward.

**“Must Dos” for Protein Types:** Eat protein at every meal and with every snack. **PROTEIN PRO TIP:** **Make sure to eat your protein food FIRST!!** Eating protein—especially animal protein—at every meal and for snacks will help to control your blood sugar levels and leave you feeling satiated and steady throughout the day. Again, remember to listen to your body; pay attention to which meals and snacks leave you hungry or craving more. Eat small meals frequently or healthy snacks between meals. Protein Types need to eat often; otherwise, they’ll suffer from extremely low blood sugar levels. Going too long between meals (or snacks) also will create ravenous hunger, which in turn will cause overeating at the next meal—only to lead to lethargy and an uncomfortable feeling afterward. Avoid refined carbohydrates. Foods such as bread, crackers, and pastas—especially those made from wheat—can be extremely disruptive for Protein Types. Wheat breaks down into sugar faster than any other grain and causes the rapid release of large quantities of insulin. That is why sprouted whole grain bread products are most nutrient dense, recommended option. Avoid most fruits and fruit juices. Fruits are a wonderful, healthy food, but Protein Types need to be extra careful with their fruit selections. Some fruits are quickly converted to sugar in the bloodstream and cause extreme blood sugar fluctuations. The best fruit choices for Protein Types are apples and avocados (high in fiber and low in sugar). Some protein types may be able to eat more of these fruits than others.

# Sample Meal Plan - PROTEIN TYPE

## Sunday

### Breakfast

P - Scrambled eggs

C - Sautéed spinach + mushrooms

F - Bacon

### Lunch

P - Baked chicken legs

C - Raw carrots, celery & cauliflower

F - Ranch yogurt dressing dip

### Dinner

P - Herb Pecan Baked Salmon

C - Steamed green beans / Spinach salad

F - Olive oil, vinegar dressing

### Snack

Cultured cottage cheese + green apple slices

## Monday

### Breakfast

P - 2 boiled eggs

C - Sprouted toast

F - Butter, Canadian bacon

### Lunch

P - Tuna salad with celery & apple

C - Lentil soup

F - Olive oil mayo

### Dinner

P - Turkey Meatballs

C - Steamed asparagus & Quinoa

F - Butter garlic sauce

### Snack

Almond butter with celery slices

## Tuesday

### Breakfast

P - Chocolate whey or pea protein powder, dairy kefir or almond milk - Smoothie

C - Spinach

F - Avocado, almond butter

### Lunch

P - \*Herb Pecan Salmon

C - Raw carrots, celery & cauliflower

F - Ranch yogurt dressing dip

### Dinner

P - Grilled grass fed burger

C - Fried Cauliflower rice with garlic & onion

F - Sesame oil (rice, avocado & cheese (top burger)

### Snack

Full fat Greek yogurt with

## Wednesday

### Breakfast

P - Egg bacon muffins

C - Sautéed spinach + mushrooms (in muffins)

F - Cheese (top muffins)

### Lunch

P - \*Grilled grass fed burger

C - \*Lentil soup

F - \*Avocado & Cheese (top burger)

### Dinner

P - \*Baked chicken legs

C - \*Steamed green beans / Spinach salad

F - \*Olive oil, vinegar dressing

### Snack

\*Cultured cottage cheese + green apple slices

## Thursday

### Breakfast

P - \*Chocolate whey or pea protein powder, dairy kefir or almond milk - Smoothie

C - \*Spinach

F - \*Avocado, almond butter

### Lunch

P - \*Tuna Salad with celery & apple

C - \*Raw carrots, celery & cauliflower

F - \*Ranch yogurt dressing dip

### Dinner

P - \*Turkey Meatballs

C - \*Fried Cauliflower rice with garlic & onion

F - \*Sesame oil (rice, avocado & cheese (top burger)

### Snack

Turkey slices & Mashed potatoes

## Friday

### Breakfast

P - \*Egg bacon muffins

C - \*Sautéed spinach + mushrooms (in muffins)

F - \*Cheese (top muffins)

### Lunch

P - \*Baked chicken legs

C - \*Lentil soup with carrots

F - \*Ranch yogurt dressing dip

### Dinner

P - Roast beef

C - Steamed cauliflower, Spinach salad with mushrooms &

F - Bacon, Olive oil vinegar dressing

### Snack

Almond butter with celery slices

## Saturday

### Breakfast

P - \*Scrambled eggs

C - \*Sautéed spinach + mushrooms

F - \*Bacon

### Lunch

P - \*Philly cheese steak

C - \*Sprouted grain bread, green apple slices

F - Melted cheese, butter

### Dinner

OUT TO EAT!!

### Snack

\*Full fat Greek yogurt with berries

# Nutrition Tips

- #1. Eat in a slow, relaxed state as much as possible
- #2. Chew food thoroughly (try putting utensil down in between bites)
- #3. Drink water, coconut water, herbal tea in between meals rather than with your meal
- #4. Add a tiny pinch of sea salt to half your water intake (electrolytes help absorption)
- #5. Choose 90% of your meals to be from your Focus Food list
- #6. Always consume your metabolically important food FIRST and COMPLETELY before eating the next food.
- #7. Stop eating when you first start to feel full (learn to listen to your body)
- #8. Choose highest quality foods available as much as possible: fresh, organic, pastured, non GMO, wild caught, etc.
- #9. Include RAW foods if tolerated based on your Diet Type (fruits, veggies, dairy, proteins)
- #10. Choose a meal prep method that works best for you! (Talk with your Coach at Get Started Session for methods)

# My REST Rx

Rest Rx Rating: **POOR**

Step 1 - Habits (Tips #2, #3, #5)

Step 2 - Hygiene (Tips #1, #4)

Step 3 - Hormones (My Restoration Plan)

## My RESToration Plan

*Talk to your Coach FIRST to determine your Factor/s before implementing any specific strategies*

### **#1 Factor: Low Blood Sugar**

*(If Tips #4 & 5 are not enough: Try taking Support Minerals 1-2 capsules before bed)*

### **#2 Factor: Low Serotonin**

*(Try 5 HTP - 50 to 150 mg at bedtime. If that doesn't help after 1-2 weeks trial, Try time-released Melatonin)*

### **#3 Factor: Hormone Imbalance**

*(Try Adrenal Support supplement + Get hormone levels tested - DUTCH Test)*

## Quality Rest Tips

**#1: Keep room cool, dark, quiet.** Use ear buds or white noise, black out drapes and cool sheets. Unplug all devices/all screens.

**#2: Establish** a predictable sleep schedule. (10:00 pm - 6:00 am) is optimal for most people. *(The liver detox time is 1:00-3:00 am)*

**#3: Avoid stimulants** *(caffeine, strenuous exercise, desserts, large meals, relational conflict)* 2-3 hours before bedtime

**#4: Try Epsom salt bath or foot soak or Magnesium warm drink before bed** *(Natural Calm dissolved in warm water)*

**#5: Eat a small protein snack** *(boiled egg, spoonful nut butter, small piece of chicken, almonds)* 30 minutes before bed *(helps to keep blood sugar stable during the night)*

# My EXERCISE F.I.T.T.

My FITT Rating: **INTERMEDIATE**

Frequency: **3-4x a week**

Intensity: **70% of Workout in THR Zone**

Time: **30-40 min OR 3-4x 10 min.**

Type: **Whole Body WEIGHT BEARING**

Fitness Macros **199** bpm THR

**50** % Strength (**20** min / 40 min)

**30** % Endurance (**12** min / 40 min)

**20** % Flexibility (**8** min / 40 min)

## STRENGTH

(+ADD Resistance)

15-20 Reps

*Dumbbells, Stretch Bands  
Ankle or Wrist Weights, Barbell,  
KettleBell, Medicine Ball, Weight  
Vest, Sandbells, Ropes*

Water Aerobics

## FLEXIBILITY

(Hold or Repeat for 20 sec.)

Fascia Training Exercises

Foam Roller

Child Pose

Upward Facing Dog

Downward Facing Dog

Cat Cow

Pyramid Pose

Revolved Chair

Triangle

Standing Backbend

Warrior 1

Warrior 2

Warrior 3

Twisted Wide Leg

Triangle

Half Seated Twist

### Pro Tips

**#1: FOCUS** on **WHOLE BODY**, weight bearing movements vs. individual muscle groups. Exercises listed above are all WEIGHT BEARING, whole body.

**#2: Workout nutrition** - Try FASTING workouts if possible. Meaning, don't eat anything till AFTER you have exercised. This assumes you would be able to exercise in the morning. Drink sugar free electrolyte blend like Ultima or Coconut Water AFTER exercise.

# My Daily F.I.T.T. Tracker

How Often

# My STRESS STAGE

My Stress Stage: **ACUTE**

*"There is no one like the God of Jeshurun who rides the heavens to help you ...The eternal God is your refuge and underneath are the everlasting arms." Deuteronomy 33:26-27*

## Stress Mastery Steps

**#1 Physical** - Eat 5 small meals a day, Light aerobic exercise, Schedule downtime, Get outside in sunshine, Take Adrenal Adaptogen and Vit. B complex with Vit.C, make sure to add electrolytes to water (either sea salt pinch or Ultima works!)

**#2 Psychological** - The Five A Strategy applies really well in this stage of stress. Have an OUTLET (a person) to process through these mental and emotional stressors

**#3 Spiritual** - Music & Worship are critical in this stage (quiet 1:1 & corporate) Faith Affirmations will fill your heart with truth during high stress.

## Stress Mastery Tools

**#1: Physically:** Support sugar balance by not skipping meals - Stay active - Identify hidden physical triggers - Get some sunshine

**#2: Mentally / Emotionally:** Brain dump - Journaling - List making - Gratitude Board - Get your thoughts OUT - Counseling

**#3: Spiritually:** Daily Biblical Meditation - Prayer Time - Music & Worship - Identify Spiritual Stressors - Faith Affirmations

**#4: FIVE A's of Stress Mastery Mindset:** Avoid / Alter / Adjust / Accept / Appreciate

**#5: The FIVE D's of Stress Mastery Lifestyle:** Diet / Downtime / Dumbbells / Devotions / Delegate

# Mastery Coaching Options:

**Chat Support / LIVE Group / Private 1:1**

*Coaching support is based on Membership Level (Basic, Plus, Complete) and can be changed, paused or deactivated at anytime and is delivered through our online platform Practice Better.*

## Chat Support

*Unlimited Coach messaging is included with every Membership Level. Coaches check in weekly with members via chat, share documents and resources, send encouragement and reminders PLUS give guidance on a personalized protocol they created for you! Group chat with other Mastery members for additional accountability and support!*

## LIVE Group

***Mastery Mondays are offered LIVE each week for Plus and Complete members.** These group sessions are structured 60 min. opportunities to share progress, learn about a specific Phase topic, ask questions and leave motivated and inspired to start your week!*

## Private 1:1

***Meet with your Coach 1x a month as you move through your Mastery Program.** These 60min. sessions offer highly customized lab interpretation, DRESS Protocols and high touch Coach support in addition to Chat and Group support for our **Complete** Members.*
